NORDÉS GIN

CATEGORY
Gin

ORIGIN
Galicia - Spain.

ELABORATION PROCESS
NORDÉS is produced slowly and with great care. A careful selection of the best neutral alcohols, together with the use of white Albariño Galician grapes, are the indispensable base of our gin, giving Nordés its unmistakable fresh and soft character. The distilling process is enhanced with the maceration of 11 botanical elements. Among them, the presence of 6 native Galician herbs -such as sage, **lemon verbena, laurel, peppermint, eucalyptus** and a sea plant, the **glasswort**- which give the product its uniquely fresh and aromatic character. It also incorporates **juniper, cardamom, ginger, hibiscus** and **black Ceylon tea.**

ALCOHOL CONTENT
40º

ORGANOLEPTIC CHARACTERISTICS
- **COLOUR:** Transparent.
- **AROMA:** An intensely aromatic gin, with delicate notes of white fruit in harmony with balsamic notes of mint, eucalyptus and bay, accompanied by a subtle note of juniper.
- **PALATE:** Fresh and fruity on the palate, reminiscent of laurel and juniper on the nose.

CONSERVATION: Generally, preserve in well-ventilated places away from heat sources.

SERVING SUGGESTION: Fill a wide glass with lot of ice, add 5 cl of Nordés gin, 20 cl oftonic and and garnish with three white grapes stick. A simple but original recipe that reinforces the fruit nuances of the Nordés gin and defines an ideal mixed drink to be enjoyed in good company.

Please enjoy reponsibly.40º
